

Introduction

Description of the program

The Academy's Foundation/Bridge program is designed to provide students with the necessary skills in English, mathematics, computing and study skills to enter the Academy's undergraduate degree programs. Based on the results of admission testing, applicants who lack the required level in these skills but show promise of success are placed in the Academy's Foundation/Bridge program. They will be taught by some of the most experienced tutors in the region. Students enrolled on the Foundation/Bridge program are regularly assessed to determine if they meet requirements for full admission to the undergraduate programs. Students will be provided with a first-class learning environment and support to give them every opportunity to succeed.

Duration (length) of the program:

The Foundation/Bridge program is normally 12 months in duration.

Intakes:

The Foundation/Bridge program has intakes in September and January.

Who is the program for?

Rabdan Academy draws its students from the UAE's police, military and Ministry of Interior staff. Professionals from these services, or people seeking a career in these government institutions should apply.

Program Details:

What you will gain from the program?

The Foundation/Bridge program will offer you the opportunity to study within Rabdan Academy's unique and world class learning environment. By completing the Foundation/ Bridge program you will:

- improve your English language proficiency, with emphasis on technical linguistics in preparation for our undergraduate programs;
- reinforce your knowledge of basic mathematical and analytical techniques that are considered necessary for enhancing your problem solving skills;
- consolidate your knowledge of basic applications of computer science as means for effective learning; and
- integrate the necessary study skills needed to effectively adopt, learn and thrive in a high quality learning environment.

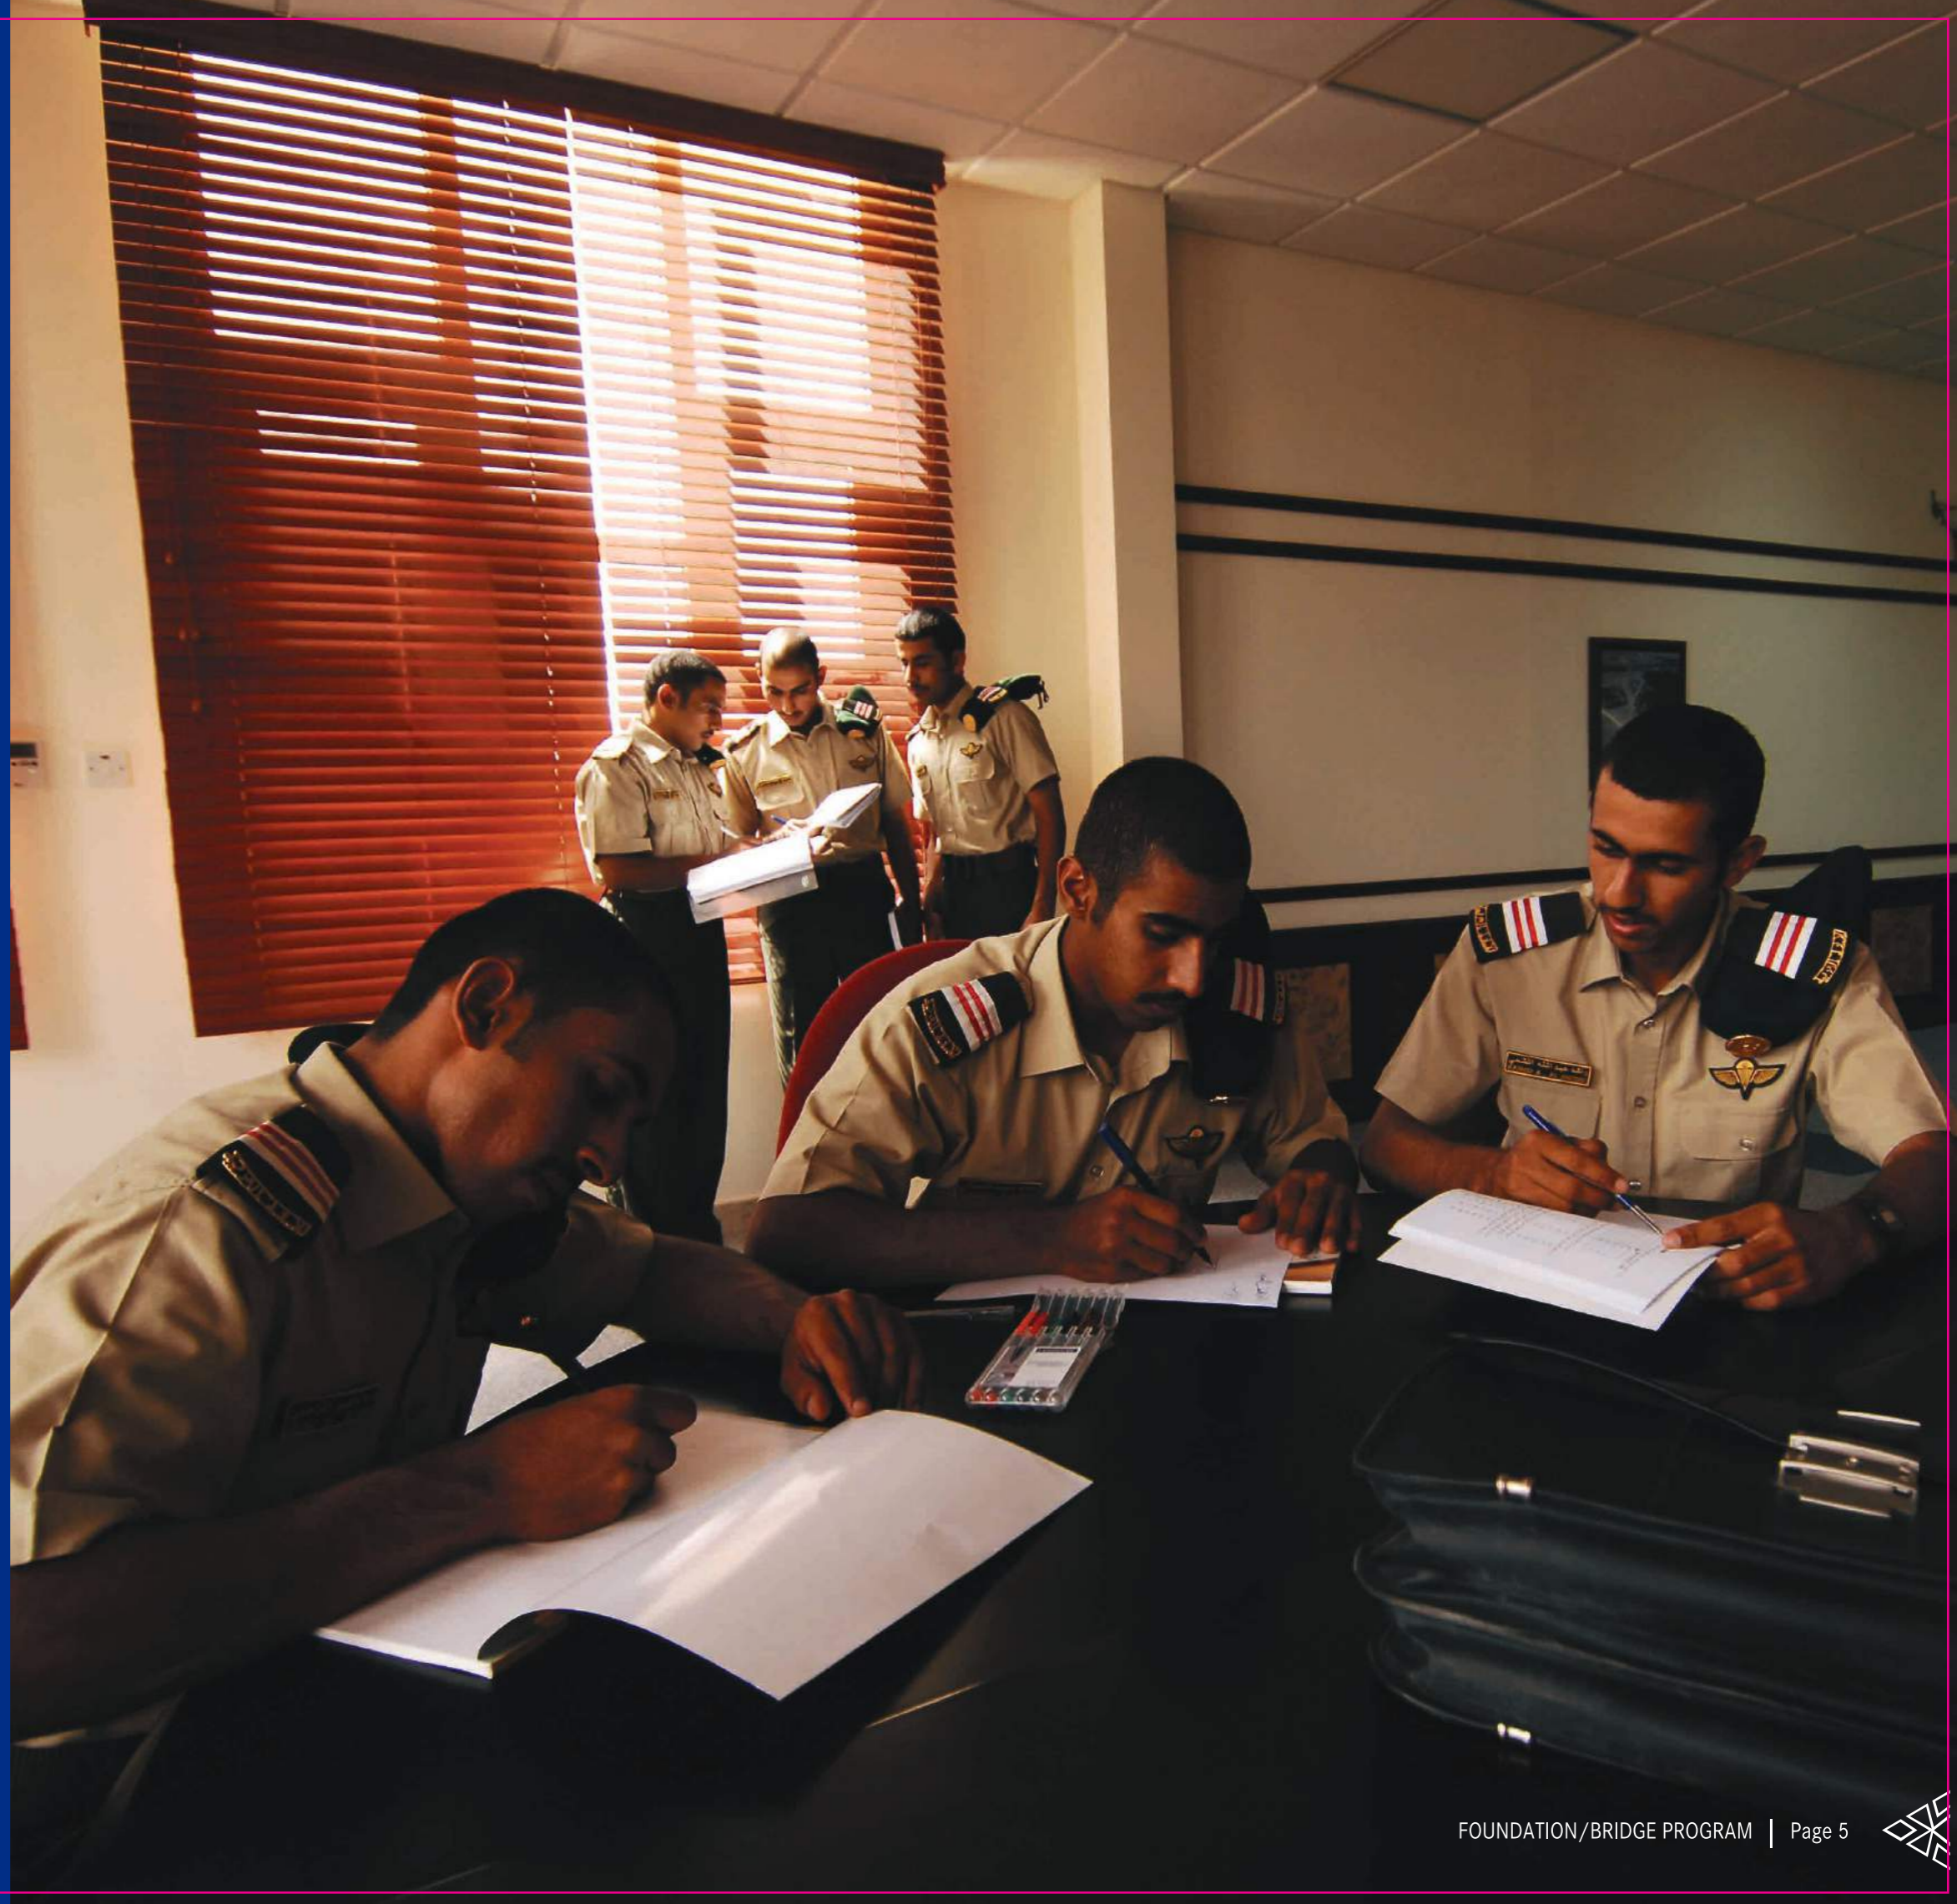

How do I apply?
